Re: West Rollin Street construction start

Dear property owner/ Resident:

In April of this year you were notified that West Rollin Street from North Main Street to Albion Street would be reconstructed during the summer. At that time the contractor did not have a start date for the project. We have now been informed that construction will begin on Friday, June 5<sup>th</sup>, weather permitting.

City engineering personnel will coordinate with property owners/ residents and the contractor to minimize disruptions. West Rollin Street will be open to local traffic but closed to through traffic. We would recommend that you avoid this area if at all possible.

All questions and concerns regarding the project should be directed to the City's on-site engineering representative from Cedar Corporation, Tom Pfefferkorn at (608) 358 – 7144.

Sincerely,

Tom Pfefferkorn  
Cedar Corporation  
City of Edgerton
